## SUMMARY:

Backend Developer with 1+ years of experience in building scalable web applications using Node.js, Express.js, and MongoDB. Skilled in designing RESTful APIs, implementing secure authentication, and integrating third-party services. Proven track record of improving performance (reduced issues by 75%) and enhancing user engagement (boosted retention by 50%). Experienced with Git, Docker, and cloud deployment. Actively seeking a backend-focused SDE role to architect and deliver reliable, high-performance systems.

## SKILLS:

- **Front-End:** JavaScript (ES6), React.js, HTML5, CSS3, Tailwind CSS, Bootstrap.
- **Back-End:** Node.js, Express.js, RESTful APIs, MongoDB, MySQL, JWT Authentication.
- **DevOps:** Git, GitHub, CI/CD, Docker, Postman, Vercel, Netlify, AWS (Basic).

## WORK EXPERIENCE:

### Software Development Engineer | Gurgaon | June 2024 – Aug 2024

- Developed and deployed web applications serving **1M+ global users**, ensuring scalability and reliability.
- Built and optimized UI components in **React.js**, reducing reported system issues by **75%** and increasing customer retention by **50%**.
- Designed and integrated **RESTful APIs**, improving product functionality and user engagement.
- Delivered a **full-stack solution for insurance agents**, including registration, authentication, and CRUD operations on policies with dynamic DataTables.
- Implemented a **secure authentication module** with token-based verification and password reset, strengthening system security.
- Built an **account management system** with real-time balance tracking and filterable transaction history, improving usability.

### Digi Common Services | Gurgaon (Freelancer)

2023

- Developed a MERN stack app for a CSC shop with 10+ service listings and WhatsApp integration.
- Built a user feedback system, boosting engagement by 20%.
- Designed an admin dashboard for dynamic content management (CRUD).
- Created optimized RESTful APIs for efficient data-fetching.
- Deployed frontend on Netlify and backend on Render, achieving 99% uptime.

### Devtown
